Attached the questions and answers in English , Mandarin translation by Ms Tan Hui Hian ji of Malaysia. There are a few sessions that the video was cut off. But all questions were answered.

Q1.) Dear Sri Bhagavan, how does one lift up their wealth consciousness so that he/she can receive continuous flow of wealth into his/her life?

A1. - Sri Bhagavan:

Firstly, you must start reviewing your life from the day you could remember. And every negative incident you must learn to see positively. Nothing should be seen negatively. And every negative event you must learn to see positively. The next thing you should do, secondly you should cultivate gratitude. Thirdly, you must improve your relationship with you mother and your father. And fourthly, you must pray for your ancestors' liberation. If these things are done, very naturally you will acquire wealth consciousness and wealth must begin to flow.

If in spite of doing all these, wealth does not begin to flow, it means you must change your

program.

Q 2.) Bhagavan, what differentiates those who live a life of wealth and abundance from those who are not?

A 2.- Sri Bhagavan:

Those who live a life of abundance experience wealth consciousness. Those who do not have a life of abundance, do not have wealth consciousness. Wealth, health, relationship or success, depends on your consciousness.

Q 3.) Bhagavan, How to achieve a life of balance when the modern man lives in a world full of challenges and stress.

A 3. -Sri Bhagavan :

When you get awakened your life automatically falls into balance.

Q 4.)Bhagavan What makes a leader?

A 4. -Sri Bhagavan:

A leader is one who is created. Secondly, he must be optimistic and Thirdly he must be modest.

Q 5.) Bhagavan what is inner peace? What has that got to do with wealth creation or attraction?

A 5.- Sri Bhagavan:

Inner peace is the absence of inner conflict and inner chatter. When this happened there is no wastage of energy. That energy leads to success and wealth in the external world.

Q 6.) Bhagavan How do we eradicate our inner greed/attachment that had always pushed us toward habits of wanting more...or wanting ever lastingly?

A 6.- Sri Bhagavan:

When the heart flowers, greed subsides and everything falls into place.

Q 7.) Bhagavan How do we reduce our Ego (or humbling oneself down)?

A 7.- Sri Bhagavan:

You must observe the ego in action and all the damage it is causing you. If you become aware of it, automatically ego activity subsides.

Q 8.) Dear Bhagavan, in your teaching, you emphasize on inner integrity and being aware. My question is does one need to seek for the "happening" of these two conditions? Please elaborate on the two conditions and how does one apply that in the day to day life. Thank you very much Bhagavan.

A 8.- Sri Bhagavan:

You can best apply these teachings in relationships. Relationship is life. Relationship is the mirror in which you could see yourself. 60% of the time, in a day you are either lying to others or lying to yourself. Lying to yourself is the most dangerous thing you could do to yourself. All that is required is, you must become aware of this lying to yourself. Everything else automatically follows.

Q 9.) My dear Bhagavan, may I know what is the fastest way to heal family relationships with all sorts of difficult problems to be solved? Thank you Bhagavan.

A 9.- Sri Bhagavan:

The oneness teaching is, the world is perfect and there is nothing wrong with anybody. Everything is wrong with you and your perceptions. If you can become aware of that, your relationships can dramatically improve. You start living in heaven, the world has not changed, but you have changed. Because you have changed, the world is heaven.

Q 10.) Bhagavan, recently, I'm reading a series of books about the universal law of attraction. May I know can I use this law to attract what I want in my life?

A 10.- Sri Bhagavan:

You could very well use these laws.

Q11.) Dear Bhagavan, as we know that, once in high level of consciousness, all good things will flow into a person's life and also he/she will have the ability to experience with what is. Bhagavan, I appreciate that if you could explain more about the importance of higher level of consciousness for family, society and country. Dear Bhagavan, how do we move into high level of consciousness? What should we do?

A 11.- Sri Bhagavan :

People live in different level of consciousnesses; the higher the level of consciousness the lesser the problems, the lower the level of consciousness more of the problems. Lower level consciousness creates problems which the lower level of consciousness cannot solve. Only if you move into the next level of higher consciousness the problems can be solved. Being with the what is a...[audio breakdown]

Q 12.) Dear Bhagavan, Oneness teaching is about liberation of the inner spirit. Why do you emphasize on receiving of wealth? What is the connection of your teaching with career and wealth?

A 12.- Sri Bhagavan:

Long ago somebody invented money and that was the game changer. And after that man became greedy. But in today's world without money you cannot do anything. We have found that people who are successful in creating wealth is also successful in the field of spirituality. That is why we are focusing on wealth consciousness and success in life.

Q 13.) Dear Bhagavan, I have joined oneness wealth course twice, and my relationship with my father is not bad too, and I have also joined sacred chambers for a few times, but why is it that I still do not have abundance in my wealth? What else should I do in order to become abundant in wealth? Thank you!

A 13.- Sri Bhagavan:

In your case, your ancestors are stuck. Please pray for the clearance and you will see then wealth begin to flow.

Q 14.) Dear Bhagavan, I have read a book you mentioned that in order to attract abundance, we have to feel like a millionaire, but my first feeling towards money is not enough, what should I do?

A 14.- Sri Bhagavan :

You must look at all the things which you have and not focus on things which you do not

have. Your brain and mind are different. Your brain can easily be fooled. So fool your brain that you are a millionaire and see what begins to happen.

Q 15.) Dearest Sri Bhagavan, I seek for your wise words to help me with my Inner Integrity.

What can each awakened family member do to help each other when we encounter challenges of painful repressed feelings surfacing from the past. Is the flowering of the heart the next part of the journey of the awakened ones? Sri Bhagavan, can you give some advice how flowering of the heart can happen with staying with the " what is" and what will happen when the awakened family has flowering of the heart. JAi bolo Paramatma Bhagavathi Bhagavan ki Jai.

A 15. - Sri Bhagavan :

As you begin to stay with the 'what is,' inner integrity follows, and inner integrity is followed by the 'flowering of the heart'. With the flowering of the heart, there is oneness in the family and with there is oneness in the family, individual as well as collective problems begins to disappear.

Q 16.) Dearest Bhagavan, is there a difference in the level of consciousness that can be achieved by a person who believes and takes the help of Super Consciousness versus someone who does not believe or take the help of Super Consciousness?

A 16.- Sri Bhagavan:

If you take the help of the super consciousness, you will grow very very fast.

Q 17.) Dear Sri Bhagavan, There are many teenagers in Singapore who spend excessive time in computer gaming, some are even addicted. This has caused many challenges, violence and disharmony in many families. What should we do as parents or teachers? Will this problem affect the future of Singapore?

A 17. - Sri Bhagavan:

The problem would affect the future of Singapore. The solution is when the parents and teachers become awakened, the children automatically change.

Q 18.) Dear Bhagavan, you have mentioned that Awakening is a journey. That staying with the "what is" is an effort that one needs to continue to master. At times, the unpleasant experiences are very much unbearable or that they occur frequently, how does one continue to function without risking being addicted to stay with the feelings. Or is it possible that one can be addicted to do so? Thank you Bhagavan.

A 18. - Sri Bhagavan:

If while staying with the 'what is', it gives you pain, then you are not staying with the 'what is'. When you really stay with the 'what is', it becomes joy then therefore it becomes addictive. In due course it becomes automatic and it is like breathing. You in fact begin to wonder how did I miss this all these years.

Q19.) Dear Bhagavan, what is the implication of major disasters that take place in a country. In this year alone, Malaysia experienced two major accidents involving the airplanes. How will this impact the consciousness of Malaysians as a whole and what can we do to uplift the consciousness of the country? Thank you Bhagavan.

A 19.- Sri Bhagavan:

Collective consciousness brings about all those events. Similarly, all those events affect

collective consciousness. What could be done is, you should gather in large group in a hall like this, put up a big map of Malaysia and collectively give a deeksha to the map, and that could definitely help.

Q 20.) Dear Bhagavan, as a Oneness trainer, I am discovering that I am becoming more and more sensitive to all the experiences taking place and my ability to stay with the "what is" is improving. However, sometimes I am not clear of whether those emotions are due to my own charges or that they belong to the participants who are in the course. How can I know the difference? Thank you Bhagavan.

A20. -Sri Bhagavan :

Motions flows both easy. It flows from you to the participants and from the participants it comes to you.

Thank you Sri Bhagavan for answering our questions.
